#### **DETAILED ACTION**

#### Acknowledgment

Applicant's Amendment and Response to Office action mailed August 11, 2003 have been entered and made of record. Claims 2 & 4-6 are cancelled. Thus claims 1, 3 & 7 are pending in this application.

### Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the first paragraph of 35 U.S.C. 112:
  - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 3. Claims 1 & 3 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Re claim 1: The disclosure describes embodiment 1 (Fig.1) having a plurality of surface insulating film, having different thickness, formed on a surface of the active regions in the first portion and embodiment 2 (Fig.8) having a surface insulating film formed on a surface of the active regions in the first portion and on the inside trench in the second portion. There is no support that semiconductor device has a plurality of surface insulating films, having different thickness, formed on a surface of the active regions in the first portion and on the interior surface of said at least one trench in the second portion together.
